This is the result of an atack made upon Richard Horton, Superintendent of the Rahway Gaslight Company, by a victous dog yesterday. Mr. Horton was badly bitten about the legs.

The dogs of the town have been allowed to run at large for years. They have multiplied and are now a nuisance. It is proposed to arm the police with shotguns some day in the near future and exterminate the peats. The idea of using shotguns is that they will domore execution and be less liable to endanger the lives and limbs of people than pistols.
